**\*EXPLANATION OF ZONE DESIGNATIONS**

ZONE	EXPLANATION
A	Areas of 100-year flood; base flood elevations and flood hazard factors not determined.
A0	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; average depths of inundation are shown, but no flood hazard factors are determined.
AH	Areas of 100-year shallow flooding where depths are between one (1) and three (3) feet; base flood elevations are shown, but no flood hazard factors are determined.
A1-A30	Areas of 100-year flood; base flood elevations and flood hazard factors determined.
A99	Areas of 100-year flood to be protected by flood protection system under construction; base flood elevations and flood hazard factors not determined.
B	Areas between limits of the 100-year flood and 500-year flood; or certain areas subject to 100-year flooding with average depths less than one (1) foot or where the contributing drainage area is less than one square mile; or areas protected by levees from the base flood. (Medium shading)
C	Areas of minimal flooding. (No shading)
D	Areas of undetermined, but possible, flood hazards.
V	Area of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors not determined.
V1-V30	Areas of 100-year coastal flood with velocity (wave action); base flood elevations and flood hazard factors determined.

**NOTES TO USER**

Certain areas not in the special flood hazard areas (Zones A and V) may be protected by flood control structures.  
 This map is for flood insurance and flood plain management purposes only; it does not necessarily show all areas subject to flooding in the community or all planimetric features outside special flood hazard areas.  
 The coastal flooding elevations shown may include the effects of wave action and may differ significantly from those developed by the National Weather Service for hurricane evacuation planning. Coastal base flood elevations apply only landward of the shoreline shown on this map.  
 For adjoining map panels, see separately printed Map Index.

INITIAL IDENTIFICATION:  
 MAY 26, 1972

FLOOD HAZARD BOUNDARY MAP REVISIONS:  
 MAY 26, 1972

FLOOD INSURANCE RATE MAP EFFECTIVE:  
 MAY 26, 1972

FLOOD INSURANCE RATE MAP REVISIONS:  
 Interim map revision effective July 1, 1974 to change zone designations.

Map revised May 2, 1975 to reflect curvilinear flood boundary.

Map revised September 4, 1986 to change special flood hazard areas, base flood elevations and zone designations; revise corporate limits and extraterritorial limits; add streets and street names; incorporate boundaries of designated undeveloped coastal barriers; change to 2-fold format; and to reflect new FEMA title block.

To determine if flood insurance is available in this community, contact your insurance agent, or call the National Flood Insurance Program, at (800) 638-6620.
